### **Introduction:**

The Recipe Book app is a beginner-level application focused on design and aesthetics, designed to serve as a digital notepad for recipe ideas. It provides users with an easy way to discover, save, and share their favorite recipes. This app caters to both cooking enthusiasts seeking inspiration and casual users who want a convenient space to store their beloved dishes.

The Recipe Book app features four main activities:

Dashboard: A user-friendly interface for browsing and discovering recipes.

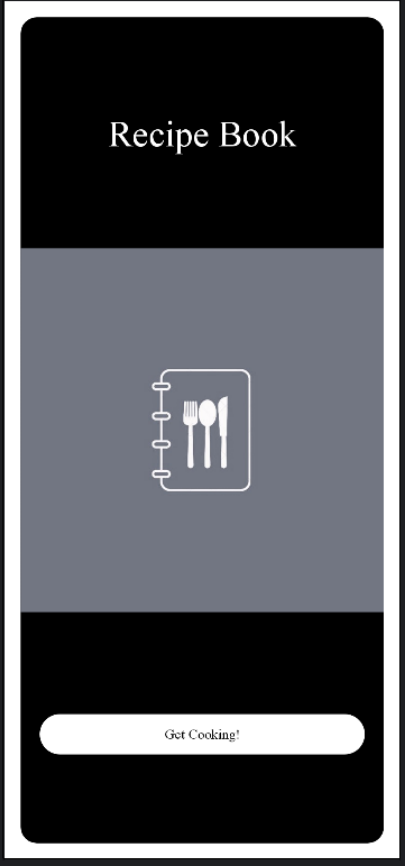

Profile Page: Allows users to view and manage their saved recipes.

Post Function: Enables users to add their own recipes to the app.

Settings: Provides information for users to customize their experience.

## App Overview

The Recipe Book app is a user-friendly mobile application designed to help users discover, save, and share their favorite recipes effortlessly. With a sleek and intuitive interface, the app offers a seamless experience for cooking enthusiasts of all levels. Users can browse a diverse collection of recipes categorized by type, search for specific dishes, and view featured recipes to inspire their culinary creativity.

### Key Features:

**Dashboard:** The main hub of the app, where users can easily access various categories of recipes, search functionality, and featured recipes.

**User Profiles:** Users can create personalized profiles to save their favorite recipes and manage their posts.

**Recipe Management:** Users can add their own recipes, including ingredients and instructions, allowing them to share their culinary creations with the community.

**Settings:** The app includes a settings menu where users can manage their accounts, change passwords, and adjust notification preferences.

**Help Guide:** A dedicated section for users to access an app overview and additional guidance, ensuring they can navigate and utilize all app features effectively.
